

Public opinion in Ukraine during the war: employment and psychological state

Conducted by Info Sapiens

Inna Volosevych

inna.volosevych@sapiens.com.ua

Methodology of Omnibus Info Sapiens

RESEARCH METHOD:

Computer-assisted telephone interviews (CATI), based on a random sample of mobile phone numbers

GEOGRAPHY OF RESEARCH:

Ukraine excluding AR Crimea and NGCA of Donetska and Luhanska oblasts. The survey does not cover Ukrainians who have moved abroad and residents of occupied settlements where there is no connection.

TARGET AUDIENCE:

adult population of Ukraine

SAMPLE SIZE:

1000 respondents. Margin of sample error does not exceed 3,1%.

PERIOD OF THE RESEARCH:

1st wave: February 7-23 2022*

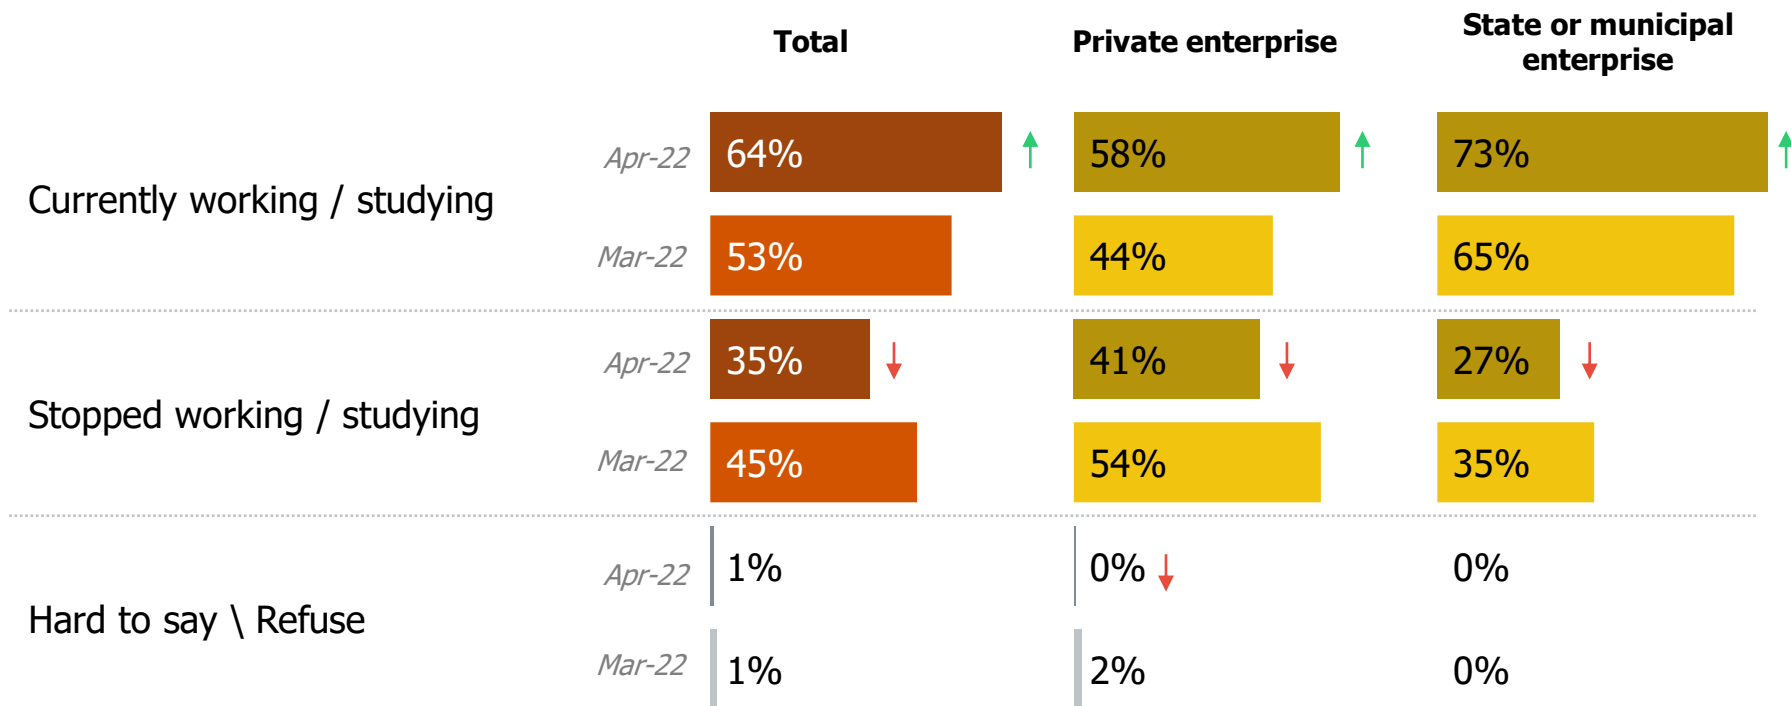

2nd wave: March 24-28 2022

3^d wave: April 10-14 2022

The data for February are not quite comparable, firstly, because they were conducted by different methods, and secondly, because the telephone survey does not take into account the opinion of Ukrainians who have gone abroad. At the same time, we believe that these data can be compared at the level of trends

FOR THE LAST 4 WEEKS YOU...

(% those who worked or studied at the beginning of the war, N = 620)

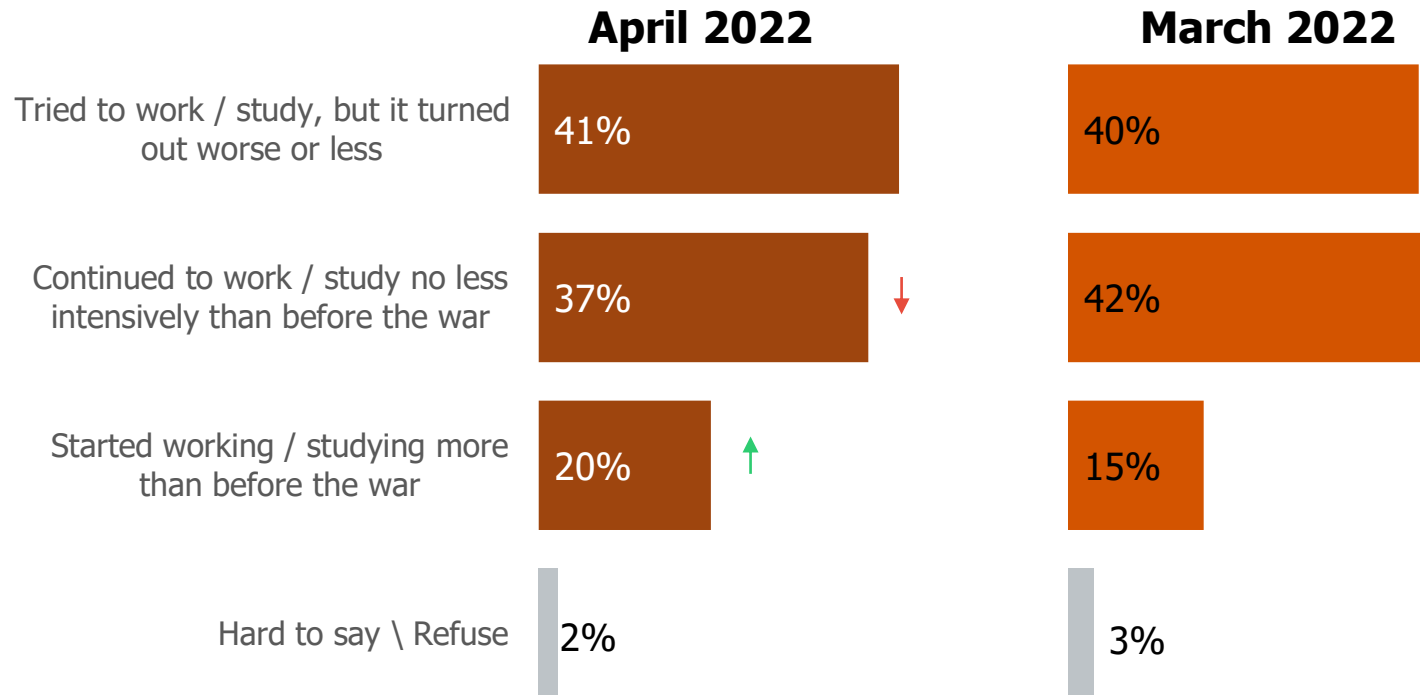

April 2022. Total: N=620, Private enterprise: n=373, State or municipal enterprise: n=153
